

DF Post Protectors

DF post protectors can cover posts 18cm diameter and under. If the pole has a smaller diameter, they can use the velcro straps to wrap around the cover to secure in place. Image below. Suitable for narrow poles. Available in blue.

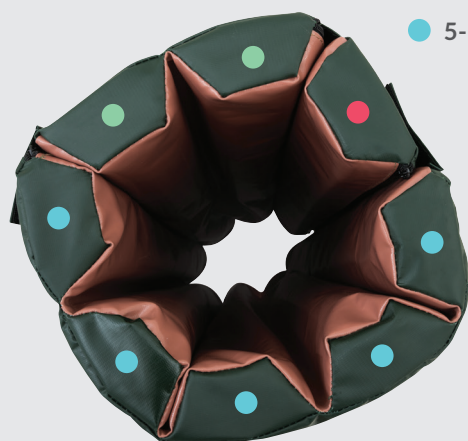

Size Guide

Pole Size Circumference	Recommended Product
50cm circumference & under (16cm diameter & under)	ASP1661, ASP1660, ASP120, ASP120, ASP060, DF75, DF76
50-56cm circumference (16-18cm diameter)	ASP1661, ASP1660, ASP120, ASP120, ASP060, DF75, DF76
56-62cm circumference (18-20 diameter)	ASP1661, ASP1660, ASP120, ASP120, ASP060
62cm circumference & higher (20cm diameter & higher)	ASP1661, ASP1660, ASP120, ASP120, ASP060

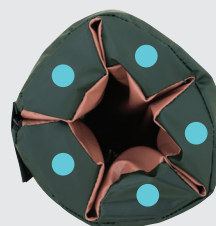

Code	Description	Height	Inner Diameter	Circumference	Round	Square	Material Thickness
DF76	Post Protector - Medium - 1.2(H)m	1.2m	18cm	56.55cm	Yes	Yes	35mm

ASP1661	Post Protector - Green - 1.8(H)m	1.8m	16cm	50.27cm	Yes	Yes	75mm
ASP1660	Post Protector - Green - 1.2(H)m	1.2m	16cm	50.27cm	Yes	Yes	75mm
ASP120	Post Protector - Blue - 1.2(H)m	1.2m	16cm	50.27cm	Yes	Yes	75mm
ASP060	Post Protector - Blue - 0.6(H)m	0.6m	16cm	50.27cm	Yes	Yes	75mm

ASP Post Protectors

The ASP post protectors consist of 8 trapezoid foam blocks (total). This includes 5-piece section + 2-piece section + 1-piece sections. This allows customisation and can be suited to cover any size pole. They can cover poles ranging from 16cm diameter and under to 20cm diameter and above (If using for a smaller pole, it won't be a snug fit but still offers protection). They can be connected multiple times using the hook and loop/zipper along the side. The illustration (below) shows each section that comes with every purchase. The larger the pole the more sections they will need. Suitable for all size poles. Available in forest green and blue.

● 5-piece section ● 2-piece section ● 1-piece section

Using the multiple sets of padding the maximum size of a post the post protector will cover is unlimited as all pieces join firmly along the hook and loop edges.

Example: If a customer has 80cm circumference pole, they will require 2x ASP120.

Please note: The smaller sections are not sold separately.
