

# Safety Data Sheet

## 1. SUBSTANCE IDENTIFICATION/ PREPARATION AND COMPANY DETAILS

**Product Name:** CLG094 - Body Fluid Absorbent Clean-up

**Recommended use:** Body Fluid Absorbent Clean-up

**Supplier:** Modern Teaching Aids

**Street Address:** Level 1, 122-126 Old Pittwater Road  
Brookvale 2100  
Australia

**Telephone:** 1800 251 497 (AU) 0800 808 044 (NZ)  
**Facsimile:** 1800 151 492 (AU) 0800 682 329 (NZ)

**Emergency Telephone Number:** 1800 251 497 (AU) 0800 808 044 (NZ)

## 2. HAZARDS IDENTIFICATION

This material is no hazardous according to health criteria of Safe Work Australia; HAZARDOUS SUBSTANCE

Not classified as Dangerous Goods by the criteria of the Australian Dangerous Goods Code (ADG Code) for transport by Road and Rail.

## 3. COMPOSITION/INFORMATION ON INGREDIENTS

Components	CAS Number	Proportion
MONTMORILLONITE	1318-93-0	85 - 95 %
Quaternary Ammonium compound	8001-54-5	< 5%

## 4. FIRST AID MEASURES

**Description of first aid measures:** If poisoning occurs, contact a doctor or Poisons Information Centre (Phone Australia 131 126).

**Ingestion:** Rinse mouth with water. Give water to drink. Do NOT induce vomiting. Seek immediate medical assistance.

**Eye contact:** Continue to Irrigate with copious quantities of water until medical help is available. Eyelids to be held open. Remove clothing if contaminated and wash skin. Urgently seek medical assistance. Transport to hospital or medical centre.

**Skin contact:** Wash contaminated skin with plenty of water. Remove contaminated clothing and wash before reuse. If irritation occurs seek medical advice.

**Inhalation:** Remove victim from exposure - avoid becoming a casualty. Remove contaminated clothing and loosen remaining clothing. Allow patient to assume most comfortable position and keep warm. Keep at rest until fully recovered. Seek medical advice if effects persist.

### Symptoms caused by exposure

# Safety Data Sheet

Refer to section 2 and 11.

## **Medical attention and special treatment**

Treat symptomatically.

## **5. FIRE-FIGHTING MEASURES**

**Specific Hazards:** Non-combustible material.

**Fire fighting further advice:** Not combustible.

**Suitable extinguishing media:** Not combustible, however, if material is involved in a fire use: Water jets, water fog (or if unavailable fine water spray), foam, dry agent (carbon dioxide, dry chemical powder).

## **6. ACCIDENTAL RELEASE MEASURES**

**Personal precautions, protective equipment and emergency procedures:** Wear protective equipment to prevent skin and eye contamination and inhalation of dust.

**Environmental precautions:** Avoid release to the environment.

**Methods and materials for containment and cleaning up:** Sweep up, but avoid generating dust. Collect and seal in properly labelled containers for disposal. Wash area down with excess water.

## **7. HANDLING AND STORAGE**

**Handling:** Avoid skin and eye contact and breathing in dusts.

**Storage:** Keep dry. Keep containers closed at all times – check regularly for spills. This material is a Scheduled Poison S5 and must be stored, maintained and used in accordance with the relevant regulations.

## **8. EXPOSURE CONTROLS / PERSONAL PROTECTION**

**National occupational exposure limits:** No value assigned for this specific material by the National Occupational Health and Safety Commission. However, Exposure Standard for nuisance dusts:

	TWA		STEL	
	ppm	mg/m <sup>3</sup>	ppm	mg/m <sup>3</sup>
Nuisance dusts	-	10	-	-

As published by the National Occupational Health and Safety Commission.

TWA – the Time-Weighted Average airborne concentrations over an eight-hour working day, for a five-day working week over an entire working life.

STEL (Short Term Exposure Limit) – the average airborne concentration over a 15-minute period which should not be exceeded at any time during a normal eight-hour work day. According to current knowledge these concentrations should neither impair the health of, nor cause undue discomfort to, nearly all workers.

These Exposure Standards are guides to be used in the control of occupational health hazards. All atmospheric contamination should be kept to as low a level as is workable. Exposure Standards should not be used as fine dividing lines between safe and dangerous concentrations of chemicals. They are not a measure of relative toxicity.

## Safety Data Sheet

**Engineering measures:** Ensure ventilation is adequate and that air concentrations of components are controlled below quoted Exposure Standards. Avoid generating and inhaling dusts. Use with local exhaust ventilation or while wearing dust respirator. Keep containers closed when not in use.

**Personal protection equipment:** OVERALLS, SAFETY SHOES, SAFETY GLASSES, GLOVES(S), DUST MASK. Avoid skin and eye contact and inhalation of dust. Wear overalls, chemical goggles and impervious gloves. Avoid generating and inhaling dust. If inhalation risk exists, wear dust mask/respirator meeting the requirements of AS/NZS 1715 and AS/NZS 1716. Always wash hands before smoking, eating, drinking or using the toilet. Wash contaminated clothing and other protective equipment before storing or reusing.

### 9. PHYSICAL AND CHEMICAL PROPERTIES

**Form / Colour / Odour:** : Buff to off-white impalpable powder  
**Solubility:** : Negligible.  
**Bulk Density** : 2.3 (Water = 1)  
**pH (1% soln)** : Not Applicable

### 10. STABILITY AND REACTIVITY

**Stability:** Stable according to available information.

**Behaviour in Water:** Forms colloidal suspension. Bulk Density: 1.12 tonne per m<sup>3</sup>

### 11. TOXICOLOGICAL INFORMATION

#### Information on toxicological effects

#### **Acute toxicity:**

Component	LD50 Oral	LD50 Dermal	LC50 Inhalation
Quaternary Ammonium compound	LD50: >300-2000 mg/kg (rat)	LD50: 1420 mg/kg (rat )	Not listed

**Skin corrosion/irritation:** May cause irritation.

**Serious eye damage/irritation:** May cause irritation.

**Respiratory or skin sensitisation:** No sufficient data available.

**Germ cell mutagenicity:** Not expected to be mutagenic.

**Carcinogenicity:** Not expected to be carcinogenic.

**Reproductive toxicity:** Not expected to impair fertility.

**Specific Target Organ Toxicity (STOT): - single exposure:** No data available

**Specific Target Organ Toxicity (STOT): - repeated exposure:** No data available

**Aspiration hazard:** No information available

**Likely routes of exposure:** Skin contact. Eye contact.

**Symptoms caused by exposure:** No adverse health effects expected if the product is handled in accordance with this Safety Data Sheet and the product label. Symptoms that may arise if the product is mishandled and overexposure occurs are:

**Ingestion:** Swallowing can result in nausea, vomiting and abdominal pain.

**Eye contact:** A severe eye irritant. Contamination of eyes can result in permanent injury. Corrosive to eyes; contact can cause cornea burns.

## Safety Data Sheet

**Skin contact:** Repeated or prolonged skin contact may lead to irritant contact dermatitis. Contact with solutions may result in irritation.

**Inhalation:** Inhalation of dust will result in respiratory irritation.

**Long term effects:** No information available for this product.

### 12. ECOLOGICAL INFORMATION

Avoid contaminating waterways.

### 13. DISPOSAL CONSIDERATIONS

Refer to State Land Waste Management Authority. Normally suitable for disposal at approved land waste site.

### 14. TRANSPORT INFORMATION

**Road and Rail Transport:** Not classified as Dangerous Goods by the criteria of the Australian Dangerous Goods Code (ADG Code) for transport by road or rail.

**Marine Transport:** Not classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea.

**Air Transport:** Not classified as Dangerous Goods by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air.

### 15. REGULATORY INFORMATION

This material is no hazardous according to health criteria of Safe Work Australia.

All the constituents of this material are listed on the Australian Inventory of Chemical Substances (AICS).

### 16. OTHER INFORMATION

This Safety Data sheet has been prepared by Modern Teaching Aids

This SDS summarises at the date of issue our best knowledge of the health and safety information of the product, and in particular how to safely handle and use the product in the workplace. As each workplace is different, each user must, prior to use, review this SDS in the context of how the user intends to handle and use the product in the workplace.

If clarification of further information is needed to ensure that an appropriate assessment can be made, the user should contact this company.
