

Caught in a Flash

How did the author teach Amelia to glide? Put the steps in the right order and then read chapter 5 again. Do you need to make any changes?

Teaching a Flying Squirrel to Glide

- Move farther away and offer the squirrel another nut.
- Offer a nut and wait until the squirrel jumps to get it.
- Do this again and again until it's too far for the squirrel to jump.
- Find a very young squirrel.
- Offer the squirrel a nut, and it will glide to you to get it.
- Look after it so that it becomes tame.
- Put the squirrel on a branch and stand nearby.
