# New Paper, Everyone!

Cut out the instructions below and  
glue them back into the right order  
to show how to make paper.

I will need:

scissors

glue

paper

We let it soak all night.

We pour it.

We scoop it up and squeeze it down.

One day ... two days ... New paper, everyone!

We dry it in the sun.

We squish it.

We mash it.

We stir it left and right.

We rip it.
