## The Guided Reading Lesson

### Introducing the text

Capture the children's interest by displaying a variety of plastic animals. Ask the children to name them and talk about the ones they might see at the zoo.

Discuss the sort of environments different animals would live in and the sort of food they would eat.

### Reading and discussing the text

Hand one book to each child. Read the title and the names of the author and the illustrator to the children. Now use the outline below to support the children as they read and discuss their way through the book.

**Cover** – What sort of food can you see in the picnic basket? Have you ever taken a picnic lunch somewhere?

**Title page** – Together, read the names of the author and the illustrator again. Do you think the animals at the zoo would like any of this food?

**Pages 2 and 3** – What is happening in this picture? Can you find the word "zookeeper"?

**Page 5** – What is the mom doing? What is the lion thinking?

**Page 6 and 7** – How is the bear feeling? Why won't the zookeeper let the boy give the grapes to the bear? Can you find the word "bear" on page 6?

**Page 9** – What sort of food is this? Why is the zookeeper vacuuming up the peanuts?

**Page 11** – What is happening now?

**Page 13** – How has the zookeeper stopped the boy feeding the parrots? What do you think the zookeeper would usually feed the parrots?

**Page 15** – What sort of food do you think zebras eat? What do you think the zookeeper is going to do with the picnic basket?

**Page 16** – Were you right?

The children can now read the book again independently.
