

Name: _____

Tsunami

Find information in the text and write questions about it. Alongside each question, write possible sources of information that would answer your questions.

One example is already done for you.

Information in the text	My questions	Possible source of information
1. "Around 750 miles of the ocean floor is forced up over 30 feet."	What effect did that have on plants and animals in the ocean?	Internet
2.		
3.		
4.		

Choose one question to research, and write your findings in the space below.

I wanted to know: _____

I found out: _____
