The Land of Ice and Snow

by Yvonne Morrin

In, *The Land of Ice and Snow*, we learn about some of the animals that live near the South Pole. Use the book and the internet to list five animals that live at the South Pole and five animals that live at the North Pole. Then, use the space at the bottom of the page to make observations about the animals on your lists. Are they similar? Are they different?

South Pole animals	North Pole animals
