- As with all electrical products, precautions should be observed during handling and use to prevent electric shock.
- Ensure the tank is placed on a steady, flat, and even surface. Keep out of reach of children.
- **DO NOT** use live fish in this tank.
- **DO NOT** attempt to move the product when filled with water or when plugged to the mains.
- **ALWAYS** disconnect from the mains when cleaning or changing the water.
- Persons (including children) with reduced physical, sensory and mental capacities, or lack of experience and knowledge, **MUST BE** supervised by a competent person responsible for their safety.

Assembly Instructions:

- 1) Remove rubber cap
- 2) Fill aquarium to the top with water. (Distilled water is recommended)
- 3) Connect A (the pin end of the adaptor) to the DC jack found on the back of the tank. Plug the B end, (plug end of the adaptor) into the wall socket.
- 4) On the front turn on the switch.
- 5) Add 1-2 drops of liquid dish washing detergent.
- 6) Put the jellyfish UPSIDE DOWN into the tank. Try to avoid air bubbles forming on the jellyfish. If necessary, use a straw or stick to help remove air bubbles.
 - Turn on the Switch at least 30 seconds before putting the jellyfish in the aquarium.
- 7) Put the rubber cap back on the top.

ON/OFF Switch:

- 1) Press the button to activate the lamp in "automatic light colour changing" mode.
 - 2) Press again to turn off.
SELECT: Press to select from 5 colour options.
- For best performance and durability of the unit, it will switch off automatically after 4 hours of operation.
 - Leave the unit off for 1 hours before pressing the button to re-active it.

Cleaning Instructions:

- 1) When filling with water if any water has been poured out of the tank, dry with a soft, clean cloth.
- 2) Wipe the tank with soft damp cloth – DO NOT immerse in water.
- 3) Change the water whenever you notice some cloudiness.

Please keep these instructions as it contains important information.

Disposal: The "Crossed Wheelie Bin" symbol on the product means that the product is classed as Electrical or Electronic equipment and should not be disposed with other household or commercial waste at the end of its useful life. The goods must be disposed of according to your local council guidelines.
